Dear Alison

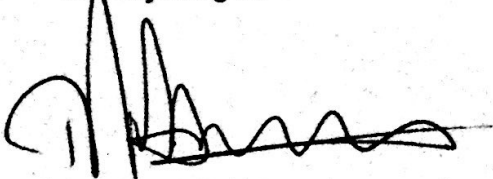

I would like to take this opportunity to say thank you and praise the LinkedIn workshop I attended in April.

The full turnout not only meant that I met some wonderful people, but showed your professionalism in running this highly recommended workshop without any delays, making sure you covered everything AND answering the deluge of questions from delegates along the way.

The wonderful thing about this workshop is that it's completely hands-on and that it allowed me to make changes to my profile there and then. The best part is that within a week, my profile ranking had shot up from an average of 160th to a respectable 40th, which clearly shows that more people are viewing my profile than ever before.

I have no hesitation in recommending anyone who hasn't been on this workshop to book themselves in on the next one!

Thank you again

Manish Vadukul
