

I Recently attended a course run by Alison Warner from Evolve and grow coaching on LinkedIn.

Alison's course was very interactive and practical rather than purely theory, which I think made us learn more as we went through the day.

She is very thorough when explaining the basics and will helpfully explain until you grasp the concept.

Tips and tricks were picked up on the day and a plan on how and why to use LinkedIn.

Great mix of attendees on the day who all ran their own business
