Alison Warner

Evolve & Grow Coaching

29th January 2015

Whilst being a long established and effective small charity, ChildAid needs to be, and is, run in the same manner as any business – with constant review and upgrading of its financial disciplines, strategic planning and programmes for growth and diversity in its marketing.

We are now coming to the close of a year long business mentoring programme run by Alison at Evolve & Grow where we have sat alongside 3 other small businesses. This has proven to be a very effective and informative process where we have all shared our ongoing blockages to growth and development and bouncing ideas off each other.

Most importantly we have been led by Alison who has openly shared a wide-range of ideas and strategies to prompt us into how to overcome specific bottlenecks in our businesses and to move us forward operationally, strategically and financially.

I am indebted to Alison for her enthusiasm and expertise and highly recommend her as a business coach who can make your business evolve and grow.

Martin Wilcox
